

Fabric Faced Tackboards

(using Guilford of Maine FR701 2100, or Open House 2334)

Care and Maintenance.

Vacuum the textile to remove accumulated dirt and dust.

Cleaning.

Surface can be cleaned with;

- Soap and water
- Water-based cleaning agents
- Solvent-based cleaning solutions
- Other cleaning systems for upholstery

Spills and Stains.

- Apply water or cleaner to the surface and wipe it with a cloth or a brush until the surface is clean.
- Ensure that the fabric is adequately rinsed after cleaning, as residual cleaning agents may accelerate soiling.
- Have the textile professionally cleaned whenever large stains or an overall soiled condition occurs.
