

Vinyl Faced Tackboards

Care and Maintenance.

Regular Dusting is advised.

Avoid pinning with bent damaged or dull pushpins.

Washable Finish.

- Stains should be removed as quickly as possible to eliminate any possible reaction between the staining agent and the wallcovering.
- Time is especially important for removing materials containing colors or solvents such as ball point ink, nail polish, lipstick, oil shampoo tints, paint, lacquer or enamel and some foodstuffs.
- Precautions: Excess soiling materials such as chewing gum, asphalt, crayon, paint, nail polish, or tar should be carefully scraped off prior to other cleaning attempts. Cleaning: The normal cleaning of the wallcoverings should be done with mild ingredients such as soap, detergent, and water.
- If stained and stronger cleaning is required, the use of a liquid household cleaner should be used. If stronger cleaning is required, first evaluate the cleaner in an inconspicuous location.
- The method of cleaning should be to use a natural sponge and the mild soap solution. A natural sponge's construction does the best job of removing dirt from the textured surface.
- With difficult to remove deposits, the use of a soft bristle brush is recommended. Then rinse thoroughly with clean, clear water, changing water often to insure it remains clean and clear. After cleaning an area, be sure to dry with an absorbent cloth so it can be examined to assure complete cleaning.
