## Bangor Cork Corona Virus, COVID-19

The Policy of Bangor Cork is to emphasize protecting our employees, customers and business contacts.

Other than employees and drivers delivering or picking up freight no visitors will be admitted into the building until the State of Pennsylvania lifts restrictions on businesses and gatherings.

Bangor Cork will remain open for our ecommerce and warehousing & distribution business as long as remaining open is allowed. Manufacturing will cease until restrictions are lifted. Inventory of finished stock in cork sheets and rolls will continue to be available for shipment but inventory of locally manufactured products will be limited to finished stock on hand. If you have a question on availability, please inquire using our contact information below.

Since customer service and inside sales will likely be working remotely please address and questions or concerns to email [sales@bangorcork.com](mailto:sales@bangorcork.com) or telephone 610-759-0320 to leave a phones message.

Today we hope to remain open and conduct limited business. If the State mandates complete business closure, we will close.

This is a strange new experience for us and unfortunately we can't predict exactly what will be the outcome but are confident we will get through it as long as people take the appropriate precautions.

Stay Safe.

Sincerely,

Peter Raines  
President  
Bangor Cork
